Summary: B.Tech (ECE) graduate with hands-on apprenticeship experience in avionics testing at HAL and networking support Training at F5. Skilled in C, Python, Linux, embedded systems and networking fundamentals with proven ability to troubleshoot real-time issues. Adept at technical customer support with exposure to OSI layers, packet analysis, and system integration. And other Challenging roles to contribute, learn, and grow

Education	Board	Institute	Percentage	Year
BTech	JNTUH	Mahaveer Institute of Science and Technology	64.40%	2023
HSC	TSBIE	Narayana Junior College	65.90%	2019
SSC	CBSE	Vignan Vidyalaya School Nizampet, Hyderabad	88.00 %	2017
EXPERIENCE				
F5, Inc.		July 2025- Present		
F5 Networks – Network Support Apprentice	• Provide technical assistance to customers via phone, email, and chat. • Diagnose and resolve networking issues in real and virtual lab environments. • Configure and troubleshoot VLANs, virtual environments, and F5 solutions, OSI layers. • Work with QA and engineering teams to escalate and resolve complex cases.			
	Hindustan Aeronautics Limited		Feb 2025 – Apr 2025	
Graduate Apprentice Trainee	• Performed functional testing of Su-30 radar transmitter modules using schematics, oscilloscopes. • Automated test procedures in C, reducing verification time by 20%. • Documented reports and proposed design-for-test improvements.			
	Bharat Intern		May 2024 – Jun 2024	
Machine Learning Intern	• Collected and labeled 15K+ datapoints, maintaining 96% accuracy. • Trained Random Forest & CNN models achieving 98% F1 score. • Delivered performance dashboards using Matplotlib & Seaborn.			
ACADEMIC PROJECT				
Traffic Signal Control for Ambulance Passage	• Developed a smart traffic signal system prioritizing ambulance passage, reducing delays and saving time. • Core Components: Real-Time Data Integration, Signal Control Algorithm, Data science and ML • User Interface: 9cm Monitoring screen and 4 switch to control the signal and one Antenna			Oct 2022
Iris Classification using Machine Learning	• Aim to Iris classification is a classic example of a supervised machine learning program there are three species Sentosa, Versicolor, and Virginica based on their morphological features. • Tool: Data Collection, Preprocessing ML model, Evaluation Metrics, Data Quality, Model accuracy 98%, “Jupyter”, “Kaggle” for data. • Its having lots of data store in the machine learning to handle an analytic			Mar 2024
TECHNICAL SKILLS				
Programming:	C, Embedded C, Python, Bash, ARM Assembly			
Networking:	OSI Model, Subnetting, TCP/UDP, DNS, HTTP/HTTPS, VPN			
Embedded Systems:	STM32, MSP430/MSP432, Arduino, Raspberry Pi, UART, SPI, I2C, TCP/IP			
Platforms/OS	Linux (Ubuntu), Windows			
Domains:	Embedded Firmware Debugging, Networking Troubleshooting, Technical Customer Support(L1), Machine Learning (Basics)			
Tools:	Wireshark, GNS3, GIT, JIRA, MATLAB/Simulink, GDB, Oscilloscopes, Logic Analyzers, PowerPoint			
CERTIFICATIONS				
Red Bull	• Digital Internship and doing Data analysis, solving the problem of customer and power point presentation about low sale on Red Bull.			Nov 2023
Prompt Engineering for ChatGPT	• Learned LLM, NLP, and Generative AI using ML and Python tools. • Generative AI using ML, Python and more tool.			Aug 2024
TCS ION Career Edge-Young Professional	• Developed a keen sense of understanding about the Microsoft Excel software • Learnt about maintaining and working on large data sets in tables and lists • And understanding telephone Etiquette, Effective Email writing, communication skill etc.			Aug 2023
ACHIEVEMENTS & SKILLS				
Class Coordinator Winner Runner-up	Facilitated Academic Sessions for 35 peers at College College Debate Competition Camel Art Competition			2020-23 2022 2014
